-- PRESERVING WHAT MATTERS MOST --

That's why we exist. To breathe lasting life into your family's life stories. More and more, people value the family—keeping it together and preserving the memories. We're here to help you pass those memories along to your family's future generations.

LEGACY STORY CAPSULE FILMS

WE'RE ASKING THE BURNING QUESTIONS:

Where did we come from? Who came before us? What were they like? How did they contribute to their community? People are tracing their lineage, inquiring about their ancestry. It's time to tell your family's stories.

What do you want your future generations to remember about your parents and those who came before you? How they overcame great obstacles? Gave back to others in need? The loving environment they created for you? The traditions they established? The celebrations that touched every heart? The laughter, the adventures, the fun you had together? This is your legacy. Here's how we can help you to both preserve and pass those experiences down.

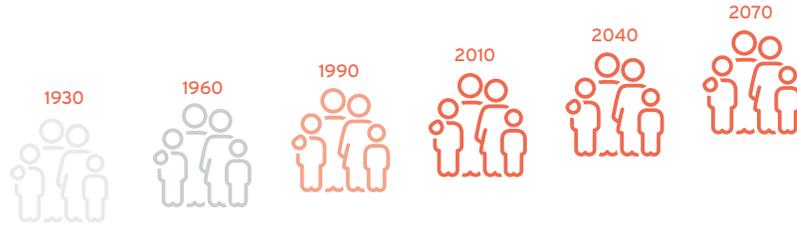

-- THE CHALLENGE --

So much of what we have, unfortunately becomes lost. Much of the older methods of storytelling--photos, scrapbooks and other memorabilia fade, degrade—or simply are destroyed. Technologies change. Your family's stories often fail to reach future generations.

MEMORIES FOR GENERATIONS

-- YOUR SOLUTION HAS ARRIVED --

Imagine being able to assemble all of your family's photos, videos and stories into a cohesive, moving keepsake that will transcend generations. Now, you can define your legacy and tell your loved one's story the way you want it passed down.

-- DISCOVER AND LEARN --

You and your family will embark on a process of discovering and learning about yourselves and your ancestors together, while crafting your family's story.

What better way to connect to your past while preserving your present for the future? Through our tried and true process, we will guide you through this meaningful journey.

-- HOW WE WORK TOGETHER --

It's fun and it's easy. On our secure website, you will find a series of questions for you about the events during each of your parents' life stages. They will then choose what matters and tell us their stories. This is the time to involve everyone to elicit their favorite life stories in this collaborative, familial process. Then, gather together their most cherished memories through an on-camera interview and share with their photos, slides, memorabilia and the tangible reminders of your parents' important life events. We will then assemble them into a cinematic version of your story.

-- AN INVESTMENT FOR YOUR FAMILY --

Now more than ever, your loved ones have the opportunity to tell their story the way they want it told—and remembered. You can give them the ability to pass down their voice, humor, talents, values and history. This is an investment in a lifetime of events. It's your loved ones' celebration of a life well lived, to last forever. It's your family's cherished keepsake to honor the people and the stories that have shaped their lives...and give them a voice for future generations to experience. **Capture it all, with your Story Capsule.**
